150 (?) points. Round robin mode.

Tournament average: ? (? / ?)

The winner was determined by a play-off between Domenico Acanfora and Enzo Vicario.

Presumably there was a changed match distance of 150 points. There are also uncertainties about the exact mode and the type of play-off. It is possible that the play-off was played in three sets of 150 points.

Detailed results and a reasonably complete final ranking are not available. Even the world federation UMB was not informed of the results at the time. There was only a list of names with placings.
