Results from final round, or qualification.

Tournament average (final round): 66,84 % (10976 / 16420)

(total): 62,38 % (15003 / 24048)

The final ranking was created consistently according to reached round, MP, Sets(+), Av., Best Game. This procedure makes it possible to show comparable results over the years.

The official ranking only used reached round and %, not match points and sets.

It was the first world championship to be played with plastic balls instead of ivory balls. For this reason, some small changes were made to the figure program.
