3 winning sets of 15 points.

KO-System with a total of 32 players.

Tournament average: 1,026 (2871 / 2796)

The final ranking was compiled according to the officially published results, although it clearly cannot correspond to reality.

Information on best sets is not possible, as the officially published innings per match are completely wrong.

Details

There were 32 players at the tournament: seeded players and players from qualifications.

There were financial problems in Seoul and discussions about the prize money. Initially, a number of players wanted to boycott the tournament. The local organizer then accommodated the players' wishes somewhat, which led to most of the players giving up the boycott. Only Raymond Ceulemans and Frédéric Caudron decided not to participate.

Second-class equipment and difficult playing conditions also resulted in some endlessly long matches.

The results provided are pure speculation. They almost certainly correspond only approximately to the real result. The innings given per set are purely arbitrary. The presentation of results was catastrophic. Accordingly, the (official) results shown here are only an approximation of the tournament, and by no means correct.
